**To:** PSC - Public Information Officer  
**Subject:** KU base rate case

Please stop the utilities from adding to the base rate. Make sure the rate increase goes to the KWH rate where it belongs so that we can encourage energy efficiency!

**Subject:** CASE 2014-00371

My dear PSC: The so-called fixed rate increase proposed by the utility KU, SHOULD BE a variable fixed rate proportional to the quantity of power consumed.

Discussion: The reason why the utility prefers to request such "across the board fixed rate increases" is because they know that the typical consumer (i.e., the low-hanging fruit) will not fight it, whereas the large consumers are organized and will go ballistic if they are adversely affected, the big outfits have their hires to create mischief for the utility.

Power rates are going up, which is okay in terms of the rising cost of production and in terms of the work that power performs for consumers. Power is actually too cheap, and the rates do not reflect the "true cost" of obtaining it, not even close. LG&E's power rate decrease is a plum for the larger power consumers, and is just opposite of what should be done. The most equitable method of spreading the costs is through the rates charged per kwh for all consumers. m.

Dear Kentucky Public Service Commission,

I am writing to urge you not to let the public utilities companies raise the rate of the monthly flat charge on it's customers. It is important for people to be able to save money by saving energy. It is important to save energy. Please do not let this happen to the good people of Kentucky and our earth.

Thank you,  
Lorah Palmer
